

Lillian Edwards

Front-End Web Developer

Duluth, USA, MN / 636-388-1179 / lillillian.edwards63@gmail.com

Professional summary

Result-oriented front-end developer with a fresh University of Denver Full Stack Flex Development Boot Camp certificate. Proficient in React, JavaScript, Bootstrap, and Material UI. Eager to learn and demonstrate versatility in creating impeccably branded and user-accessible web experiences. Built a full stack completely functioning and beautiful Twitter-clone in under a week. Self-motivated and a great communicator.

Projects

Front-End Developer & Project Manager

BLURB

- Final application lauded as the best final project seen in University of Denver's program over the last 5 years.
- Orchestrated the project's success by designating tasks on khanbahn, creating an application flowchart, and guaranteeing regular communication.
- Collaborated on styling and UI improvements, implementing tool tips and alerts for usability. Optimized Cloudinary image upload integration, making the app more aesthetically pleasing and intuitive to use.
- Strengthened the platform's user experience by developing and refining React components such as profile, login/user creation hooks, and follow/unfollow mutations.

Full Stack Developer

LITTLE SITE OF HORRORS

- Developed and debugged editable profile components using Handlebars and JavaScript
- Created dynamic carousels using Bootstrap to display random content from scary movie database.
- Utilized Figma to wireframe the entire application, improving project planning and execution.
- Created ERD diagrams for SQL models.

UI/UX Developer

MENU MATCH

- Produced application brand design and wireframe outlining user experience and project development roadmap.
- Developed landing page with jQuery ensuring functionality and engaging design leading to users 20 - 83 years old being able to use and navigate the app easily.
- Directed custom styling of Bootstrap elements to accomplish a beautiful and logical user interface.

Employment History

Multi Grade Teacher, Todd County School District

AUG, 2020 - MAY, 2023, MISSION, SD

- Achieved remarkable 93% increase in third-grade reading scores on standardized testing, reflecting the impact of rigorous and student-centered teaching methods.
- Delivered an impressive 105% increase in second-grade reading scores on standardized testing, showcasing a deep commitment to student success.
- Collaborated interdisciplinarily with a co-teacher to effectively instruct two multi-grade classrooms.
