👤 PROFILE

Motivated UI/UX Designer with a background in teaching. Ready to bring classroom skills in managing diverse stakeholders, information architecture, and understanding user needs to web design.

★ PROJECTS

Menu Match, jkellogg01.github.io/menu-match
September 2023

- Led application design and wireframing process to outline user interface and user experience (UI/UIX).
- Spearheaded the development of the landing page, ensuring both functionality and an engaging design to captivate user interest.
- Successfully utilized custom CSS to style and optimize the entire application, enhancing the visual appeal and user experience.

Little Site of Horrors
October 2023

- Spearheaded the wire framing and UI design process for a full-stack scary movie forum application.
- Effectively developed the landing page, user profile, and user edit profile functionality leading to a responsive and intuitive user experience.
- Achieved a 100 Lighthouse accessibility score leveraging knowledge of inclusive user design.

💼 EMPLOYMENT HISTORY

Multi-Grade Teacher at Todd County School District, Mission, SD
August 2020 — May 2023

- Collaborated interdisciplinary with a co-teacher to effectively instruct two multi-grade classrooms.
- Successfully implemented a district-wide classroom management program to align diverse stakeholders on a shared classroom vision and protocol.
- Logically structured lesson plans and respective content to enhance user understanding.
- Adapted and iterated teaching strategies and materials to accommodate individual user needs.
- Routinely conducted assessments to gain data on user preferences, growth, and mindset.

🎓 EDUCATION
